### Ideal for So Many Sites

Each El Dorado Gazania was specially bred for vigorous bloom, bushy form and consistent height. Masses of flowers cover the mounded, 8-10" tall plants all summer long! You'll find the collection's mixture of vibrant colors ideal for beds and borders. But why stop there? These tidy gazanias are ideal for edging walkways or planting in rock gardens, pots and window boxes, where their cheery blooms will attract plenty of butterflies.

### So Easy to Grow

Our gazania hybrids tolerate a wide range of growing conditions, including hot, dry and salty environments. Simply space plants 10-12" apart in full sun. A perennial in their native climate, gazanias will overwinter in the mildest regions of the U.S.A. (Zones 8-10). In cooler zones, they are grown as annuals.
